Documentation

Getting started

Order

Volunteers (with Option Order)

To create the volunteer form:

```ruby
# create the form
form = Form.create!(name: "volunteers-1")
Form::Field.create!(name: "sector", field_type: "select_field", required: true, options: { sectors: ["park", "welcome"]}, form: form)
Form::Field.create!(name: "comment", field_type: "text", required: false, form: form)

# create the volunteer bundle
supertype = OrderType.create!(name: "event")
type = OrderType.create!(name: "volunteer", supertype: supertype, form_id: form.id)
bundle = OrderBundle.create!(name: "Bénévole RJ19", description: "Deviens bénévole à la RJ 2019 !", key: "volunteers-rj-19", order_type: type, open: false, limit: 1)
Item.create!(name: "Pass WE pour bénévole", description: "Ton pass pour le WE de la RJ", price: 5000, number: 1000, order_bundle: bundle)
```
